Dr. Beck and Dr. Lowit –

I hope you both are well. Wanted to send a brief follow-up note regarding a few of the items we discussed for follow-up from your visit earlier this month. For your information, the situation is more or less in the same spot, with the government designing a spray program that will still need the Court's blessing.

I wanted to see if we could get on the calendar with either or both of you a teleconference or videoconference with our Colombian staff here to cover the same topics you covered during your visit. There is still considerable misinformation re: glyphosate within the Embassy and to ensure we're all singing from the same sheet of music, it would be great to run through your presentation and open it up for questions. INL Mexico has also expressed interest in participating in such an event, as they are in the process of moving the Government of Mexico away from paraquat to using glyphosate. We can work out the details, but if you all were willing, it would be good to get this on the books before the end of the year.

Otherwise, hope you all are well and hope we can speak again soon.

Best,
Nathan

Nathan,

Thanks for sharing. EPA has no concerns with the cable. Thank you again for all your assistance with the visit. It was definitely time well spent. Please keep us posted on how we can assist with next steps.

Regards,
Nancy

EPA Colleagues –

Greetings again from Bogota. Attached, is a draft cable on Drs. Beck and Lowit's visit to Bogota. Again, we'd reiterate that this was a great success and thank you for your time.

We probably only need one clearance, but will take as many as you think we need.

Thanks again,
Nathan
